# HODGEPODGE

TO GET (AND KEEP) YOU IN  
THE HOLIDAY SPIRIT!

## PHALAENOPSIS SEEDLINGS

Whites of Excellent Parentage!

- #1 (Phal. Altadena x Phal. Innocence) x  
Phal. Winged Victory
- #2 Phal. Winged Victory x Phal. Rotary Ann
- #3 Phal. Winged Victory x Phal. Winged Victory
- #4 Phal. W.K. DuPont x Phal. Doris
- #5 Phal. Rotary Ann x Phal. Chieftain

Thumb Pots  
\$1.00 ea.

2-1/2" - 3" Pots  
\$3.00 ea.

Please! Give alternate selections on these  
A-1 Whites!

## MATURE PLANTS

For this group we will select fine labeled hybrids representing different seasons and a varied color range - with lavenders to predominate. Plants are all in good cultural condition, well bred stock that will give you pride of ownership and very good flowers! In fact, to show you we've got the HOLIDAY SPIRIT we'll shift 'em for you, prior to shipment, so that you won't have to repot 'em for a long time to come!

5" to 7" Pot Sizes:

|           |          |
|-----------|----------|
| 5 Plants  |          |
| 10 Plants | \$39.50  |
| 25 Plants | \$69.50  |
|           | \$150.00 |

Your satisfaction always  
guaranteed.

## GONGORA LEUCOCHILA

The fragrant spider-like blooms of Gongora are of clear yellow, heavily marked with chocolate red, 1-1/2" in spread. Twelve to eighteen inches in height, the mature plants have large lanceolate leaves 4" - 4-1/2" in width and short, strongly ribbed pseudobulbs. Each of the long arching stems originating from the base of the pseudobulb bears 15 to 20 flowers in early spring. Plants are native of Central and South America and may be grown in osmunda in the Cattleya house.

Gongora Leucochila (quinquenervis) is highly desired by the discriminative collector of botanicals as well as the individualistic orchid grower who desires something "Out of the ordinary".

### Transplanted Flasks

Contains a minimum of 20 large plants ready for immediate shifting into thumb pots. This purchase particularly recommended for Orchid Societies.

Special Pricing: \$7.39

### PLANTS

WELL ESTABLISHED IN

### THUMB POTS

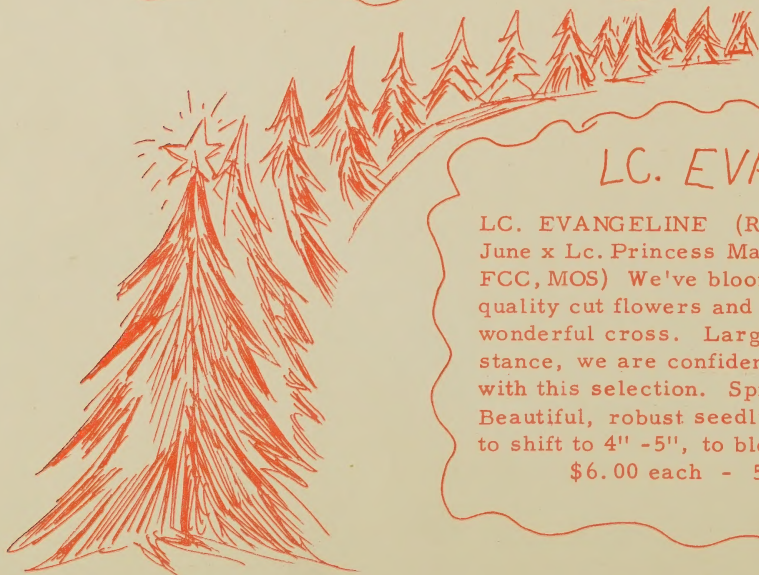

Special Pricing: .79¢ each.

## CYMBIDIUM SEEDLINGS

- R-1782 CYM. ALEXANDERI, var. Westonbirt, FCC, RHS x CYM. SUSSEX, var. Laelia Sasso, HCC, NSW, AD, NSW - An Australian favorite, SUSSEX, var. Laelia Sasso, is of copper-bronze, of exceptional form and substance. Combined with the famed Alexanderi, Westonbirt, exceptional blooms of cream to yellow to bronze should result. Thumbpots: .80¢ and \$1.00
- R-1702 CYM. SUSETTE x CYM. CONSTANCE FLORY. Varying shades of bronzes to deep rose to red are expected of this cross. Both parents involved were selected for their outstanding red coloring along with their excellence of form and substance. A recent hybridization, we have not as yet flowered this cross which should be an excellent gamble for those wishing to obtain red Cymbidiums for their collection. 3-1/2" to 5" pot sizes: \$8.00 and \$10.00
- R-1679 CYM. CONINGSBYANUM, var. Brockhurst, AM, RHS x CYM. CYGNUS. Coningsbyanum, var. Brockhurst, is an early flowering hybrid, highly productive of large light yellow blooms of outstanding form and substance. Combined with the attractive green Cygnus, we predict a highly desirable color range of cream to yellow to green. As yet we have not flowered this cross, but great expectations are in order! 3-1/2" to 5" pot sizes: \$6, \$12 and \$15

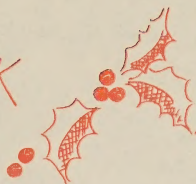

## LC. EVANGELINE

LC. EVANGELINE (R-1671) (C. Dupreana, var. June x Lc. Princess Margaret, var. Content, FCC, MOS) We've bloomed a high percentage of quality cut flowers and exhibitionals from this wonderful cross. Large, dark, and of heavy substance, we are confident that you will be pleased with this selection. Spring to summer flowering. Beautiful, robust seedlings of 3" pot size, ready to shift to 4" - 5", to bloom within 6 to 18 months. \$6.00 each - 5 for \$25.00.
